

NAC

NEUBERT AERO CORP.

6ft Airport Low-Profile Barricades

Secure Your Airport with NAC's Safety Barricades

Designed to comply with all FAA performance requirements for operational safety, NAC's 6ft low-profile safety barricades are designed exclusively for airports and shipped complete with minimal assembly required. Priced among the most competitive in the industry, NAC barricades are "jet-blast tested" at the FAA William J. Hughes Technical Center and come equipped with orange and white high intensity reflective sheeting for increased safety. Versatile warning flag and lighting mounts allow for multiple configurations to meet your traffic control and airport safety needs. Made of UV-resistant polyethylene plastic, NAC barricades are extremely durable and won't crack or degrade outdoors.

Use NAC's 6ft low-profile safety barricades to identify:

- Delineated runways;
- Airfield construction zones;
- Closed pavement surfaces; and
- Much more.

NAC's patented design applies the same principals of aerodynamics used in aircraft design.

PRODUCT SPECIFICATIONS

6ft Low-Profile Barricade

- Size: 6" (H) x 6" (W) x 72" (L)
- Weight Empty: 11 lbs
- Weight Full: 100 lbs (Sand) or 58 lbs (Water)
- Gallon Capacity: 5 gallons

Convenient

NAC's barricades are portable and easy to use.

Versatile

Interlocking connection system allows for simple set up and break down.

Safe

Barricades include orange / white high intensity reflective sheeting to maximize visibility.

NAC is a certified MBE and SDVSB providing airport services and safety solutions.
