Runway "X" Closure Marker

31900XB

Keep Your Runways Compliant with FAA Specifications with NAC's Runway "X" Closure Markers

NAC's Runway "X" Closure Markers provide airports with a cost-effective alternative to traditional markings. Tested under actual runway conditions for civilian and military runways, the Runway "X" Closure Marker effectively warns pilots of closed runways and taxiways. Durable 8 ft x 60 ft yellow vinyl-coated windscreen material includes a 6" black border and anchor grommets for use with sandbags or steel anchors.* Includes a heavy-duty red storage bag for easy identification.

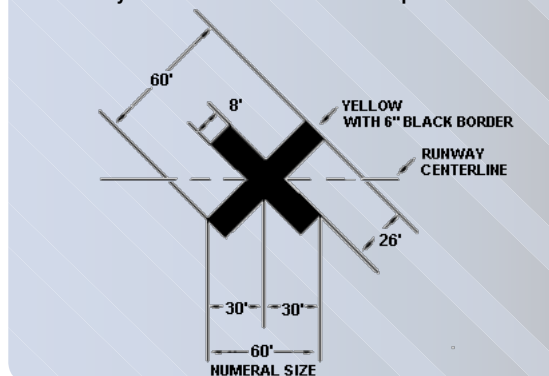

*sandbags and steel anchors sold separately

Note: Taxiway Closure Markers also available.

AIP ELIGIBLE

Runway "X" Closure Marker Detail & Specifications

NAC is a certified MBE and SDVSB providing airport services and safety solutions.

Convenient

Easily portable for quick response.

Weather Resistant

Durable lightweight vinyl coated material is mildew and ultraviolet resistant.

Did You Know?

The FAA requires a runway to be 'marked with a yellow "X" at each end when the runway is formally closed.' A runway is closed when it cannot be made available for aircraft operations within a one- or two-minute notification by either a pilot or air traffic controller due to construction, maintenance or aircraft emergencies.
