NEUBERT AERO CORP.

8ft Airport Low-Profile Barricades

PC9642

Secure Your Airport with NAC's Safety Barricades

Designed to meet FAA specifications for operational safety, NAC's 8ft low-profile safety barricades are designed exclusively for airports and shipped complete with minimal assembly required. Priced among the most competitive in the industry, NAC barricades are "jet-blast tested" at the FAA William J. Hughes Technical Center and come equipped with orange and white high intensity reflective sheeting for increased safety. Versatile warning flag and lighting mounts allow for multiple configurations to meet your traffic control and airport safety needs. Made of UV-resistant polyethylene plastic, NAC barricades are extremely durable and won't crack or degrade outdoors.

Use NAC's 8ft low-profile safety barricades to identify:

- Aircraft parking aprons;
- Large liner pavement construction zones;
- Closed taxiways; and
- Much more.

NAC's patented design applies the same principals of aerodynamics used in aircraft design.

PRODUCT SPECIFICATIONS

8ft Low-Profile Barricade

- Size: 6" (H) x 6" (W) x 96" (L)
- Weight Empty: 15 lbs
- Weight Full: 120 lbs (Sand) or 72 lbs (Water)
