Runway Friction Tester

Dynamic Friction Tester™

US Patent No. 7117716B2

Continuous Friction & Fluid Drag Measurement Device

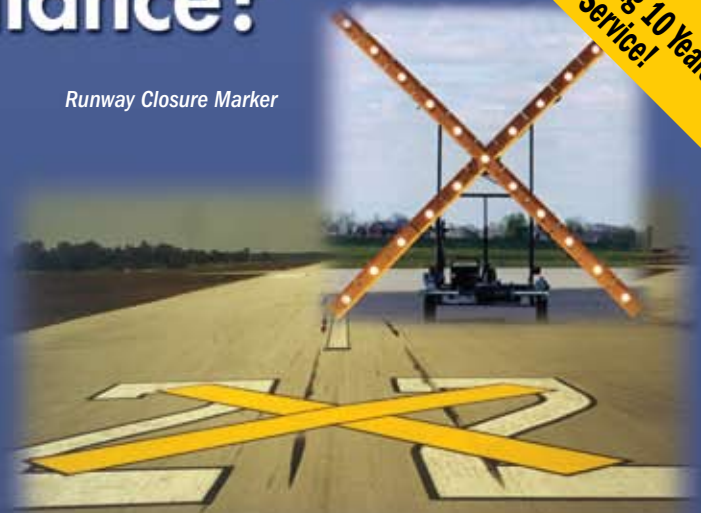

- FAA Approved CFME
- Winter & Summer Friction Reporting
- Touch Screen Wi-Fi Technology
- Reports Ambient & Surface Temperatures
- Solar Back-up Power
- Self-Calibration System

Dynamic Friction Decelerometer – DFD™

- FAA Approved
- Portable, Rugged & Reliable
- Real-time motion signal processing
- USB Cable connectivity to existing laptop or handheld computer (sold separately)

Runway Closure Marker

Reusable Temporary Runway "X" Markings

Taxiway Low-Profile Barricades

- Jet Blast Tested
- Durable and Affordable
- Easy to Install
- NO Pins Required

i-AIR®

i ntegrated- Airfield Inspection and Reporting

- GIS/GPS Moving Map Technology
- Detailed Record Life-cycle Reporting
- Real-time Reference Data
- Integrates with existing CMMS
